KHAYELIHLE CHILDREN'S VILLAGE NEWSLETTER – APRIL 2010

During Easter holiday, five of our youth attended a National Churches of Christ Youth Church Conference, which was held in Mutare, one of the lovely cities of Zimbabwe. They were accompanied by Jabulani Ndiweni, the KCV Field Officer. The women from the church also attended a Bulawayo Women's Conference and men were to go for an outreach programme. Everyone at the Village was active that Easter holiday. Those who remained enjoyed a special Sunday, where they sang and praised the Lord. The Easter programs at church are always so unique and special for they are a reminder of Jesus' death and resurrection.

Khayelihle Children's Village has 89 children of which 50 are girls and 39 are boys. It is good news that three of our children were baptized and are happy about their newfound life. Please pray for them that they continue to grow spiritually in Christ. The three children were baptized in the month of March and these were Petros Masikati, Last Maseko and Godknows Sibanda. They were very excited, as they could not wait to take part in serving and participating in the youth group at church.

Fezile Moyo, who is a student at King George VI, a special school for pupils with disabilities, is very talented. She is hearing impaired, but her disability has not been a hindrance in her life. She is a good athlete at school and specializes in running 100 metres. During the first term, schools in the country conduct sports competitions where almost all the students are encouraged to participate in one or so disciplines. These competitions start from house level (the students are divided into groups called houses) in each school, to schools against schools, to the regional level and national level. Fezile competed in the house level in athletics and did very well for her house. At her school, they are taught handcrafts and she knits wonderful scarves, jerseys and mats. Her work is so impressive. When she receives

some knitting threads, her hands are ever busy. During holidays, on her free time or study breaks, she will be knitting. We pray that she will be very encouraged to take this talent up as most people with disabilities make a living out of such talents. Please pray for her that she keeps up the good work and determination.

Preparing a place where cattle will be waiting before being milked.

Our Community Orphan Care Programme (COCP), which has 105 children, is going on very well. It is of concern to us that World Vision, the organization that has been donating towards this program, will be ending their support this month. Please pray that God blesses them for the wonderful work they have been doing.

Part of the field

We had a successful yield of maize and sorghum at the Village. We are currently putting lucerne (alfalfa) and sorghum in a barn for feeding the cattle. We praise God for the good harvest.
